Carnation for the Children

Carnation is a pure, healthful drink for children because it is only fresh, sweet cows' milk with part of the water in the milk evaporated. It is sealed in the containers and sterilized—no impurities can possibly reach it. To prepare Carnation for drinking, it should be diluted with pure water to the consistency of ordinary milk. Equal parts of Carnation and water make a rich, wholesome drink. If you prefer it not so rich, use two parts Carnation to three parts water. All children should have a quart of milk a day.

DESPOUDENT WOMEN.

A prominent writer claims that "women are naturally despondent," but often mental depression may be attributed to an abnormal condition of the system, which expresses itself in nervousness, backache, headache, sleeplessness, and consequent despondency. Lydia E. Pinkham's Vegetable Compound goes to the root of this trouble, it gives tone and strength to the system and restores women to a normal, healthy condition.

Male Electrical Workers Win Raise From One Company

The union scale of wages has been secured for all the male members of the local Electrical Workers' union, employed by the Memphis Telephone company, Harry C. Watson, business representative of the union said Wednesday. The union scale was established Monday without contract, signing of the contract having been deferred for 30 days by agreement pending the outcome of negotiations for the sale of the Memphis Telephone company. Within 30 days, if the company has not been sold, the union will expect the contract to be signed.

The union scale of wages means an increase of from 12 to 15 per cent over the old scale. This will average for linemen, cable splicers, switchboard men, ground men and other male electrical workers about 75 cents an hour or \$6 a day. It will mean about 90 cents an hour for wire chiefs. Mr. Watson secured the adoption of the scale in a conference with Harvey Myers, president of the telephone company. He expects to meet Estes Young, district plant chief of the Cumberland Telephone & Telegraph company, Saturday afternoon and request that the Cumberland company adopt the scale.
